Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner informed applicant that the received after final amendment (5/19/05) was incomplete in the system. Applicant explained the response was submitted in two separate transmissions. However, only one has been properly entered. The examiner requested a full copy of the transmission including transmittal letters and confirmation receipts of the original transmissions. The examiner also informed applicant that if all the claims were amended from apparatus claims to method claims the response would not be entered. However, the examiner explained that if applicant agreed to cancel all of the method claims the examiner would allow new apparatus claim 42 which includes previously indicated allowable subject matter, pending SPE approval. Applicant agreed to send full fax transmission and discuss the option of allowing claim 42 with applicant. .
